

Sign Design Proof

Prepared for Haru · 3030 W Cary St, Richmond, VA 23221

AUGUST 10, 2026

These are starting ideas. Nothing is final yet.

1. Look at Part A, Part B, and Part C.
 2. Pick your favorite number in each part.
 3. Text Spencer the three numbers, like **A4**, **B5**, **C1**
- The side wall on Belmont Ave is not here on purpose. We choose the front and the corner first. Then Spencer designs the side to match, so the building looks right from every angle.
 - Nothing is placed randomly. Every size lines up with the building: the windows, the corners, and the trim.
 - All the signs sit lower on the wall, the way you asked.
 - The front photos do not show the Japanese and Korean letters yet. Spencer adds those after these first choices.
 - If you do not like any of them, pick the closest one and tell Spencer what to change.
